

Sample email to send out to employees

Associates who enjoy esports and gaming in your free time,

There is a new challenge in the KC metro named the Kansas City Corporate Esports Cup, presented by Veracity, powered by KCGameOn.

This will be an 8 week league, followed by a double elimination tournament, seeded by league results featuring three popular titles at this time - League of Legends, Rocket League and Mario Kart 8.

To get started and get more information, please visit www.kcesportscup.com and read through the 'overview' section, as well as the 'how to compete section.' Captains will need to create an account through the website to create the team and populate the players.

Once teams are created and fees are paid, the team(s) will be entered into the automated email system where we will send out the weekly schedule, to be played each Sunday at Noon.

If you have any questions or need more direction, please contact nick@kcgameon.com or fill out the contact form at the bottom of the website.
